

CUYAHOGA COUNTY COURT OF COMMON PLEAS JUVENILE DIVISION

2011 ANNUAL REPORT

COVER

*The
photograph located on the front & back cover
commemorates the closing of the former
Cuyahoga County Juvenile Court building
which had been located at
East 22nd and Cedar Avenue
since
December of 1932.*

*An invitation was extended to all staff to
participate in the photograph.*

*The location is the front entrance, which faced
E. 22nd Street of the main court building.*

The photograph was taken in September of 2011.

*The court relocated in October of 2011
to our new location, which would be known as
the Cuyahoga County Juvenile Justice Center,
at 9300 Quincy Avenue,
Cleveland, Ohio
44106.*

COURT OF COMMON PLEAS JUVENILE COURT DIVISION

COUNTY OF CUYAHOGA
9300 QUINCY AVENUE
CLEVELAND, OHIO 44106
(216) 443-8400
OHIO RELAY SERVICE 711

Marita Kavalec
COURT ADMINISTRATOR

The Citizens of Cuyahoga County

The Honorable Maureen O'Connor
Chief Justice, The Supreme Court of Ohio

Ed FitzGerald
Cuyahoga County Executive

C. Ellen Connally
President, Cuyahoga County Council

Harvey J. Reed
Director, Department of Youth Services

Greetings:

"We have arrived at our destination!" These words were not spoken by the solitary voice of a global positioning system (GPS) but rather by a chorus of over five hundred (500) Judges, Magistrates, Court and Detention staff, prosecutors, and attorneys as we entered the Cuyahoga County Juvenile Justice Center (CCJJC) at 9300 Quincy Avenue. After nearly thirty years of planning, multiple starts and stops, the County's newest state-of-the-art complex opened for business in October, 2011.

The Cuyahoga County Juvenile Justice Center is the incarnation of aspirations. The aspirations of a Juvenile Court whose physical facilities had deteriorated over a century although the Court had grown in size and scope. A Court which was housed in three overcrowded and operationally obsolete facilities, two of which were retrofitted buildings which were never intended for Court operations.

The CCJJC consolidates the three separate buildings and functionalities into one which will reap innumerable efficiencies.

OPEN LETTER (continued)

The new edifice covers approximately 640,000 square feet. The Court tower consists of nine floors with 32 courtrooms. For the first time ever, all Judges and Magistrates have the opportunity to conduct hearings in real courtrooms. Security will be better ensured as the Courthouse contains separate circulation paths for the public, defendants, and Jurists.

The Detention Center offers a safe and secure setting for up to 180 juveniles.

The overall facility was designed for Leadership in Energy and Environmental Design (LEED) Silver certification. It also boasts the lowest construction cost per foot of the twenty-four (24) most recent Courthouse building projects in the nation.

The relocation to the CCJC was a daunting undertaking. Our staff labored tirelessly in organizing, purging, and packing. They did all of this while managing to serve the public daily. We collectively accomplished our move without a moment's interruption to our day-to-day operations.

Our information technology (IT) staff deserves special recognition for their extraordinary efforts. The Court's case management system is its lifeblood and the IT team installed equipment, hardware, and an entirely new platform in a seamless fashion. They received supportive assistance from the Cuyahoga County's Department of Information Technology.

The Judges and I are also compelled to thank the CCJC design and construction team, particularly Justice Planning Inc., and Heery International Inc., who toiled for years on the project. We are also grateful to Relocation Specialists Inc., (RSI) who led us from our old to our new destination.

Clearly, a new and exciting era has begun for the Cuyahoga County Court of Common Pleas-Juvenile Division. We are inspired by our pristine surroundings and our passion and commitment to dispense justice and aid families has ascended to a new level.

Along with the report of our achievements, I hereby submit, in compliance with the Ohio Revised Code 2151.18 and 2151.71 the 2011 Annual Report of the Cuyahoga County Juvenile Court regarding the number and kinds of cases coming before it, their dispositions, and other data pertaining to the work of the Court.

Respectfully,

Thomas F. O'Malley

Administrative Judge, 2011

JUDGES & COURT ADMINISTRATOR

Bottom Row (Left to Right):
Judge Kristin W. Sweeney,
Judge Peter M. Sikora and
Judge Alison L. Floyd.

DETENTION SERVICES

DETENTION SERVICES

Detention Services manages the care of all juveniles in the secure detention continuum, including the Detention Center, Shelter Care, and Home Detention. During the year 2011, the Detention Center had an average daily population of 125 juveniles, Shelter Care an average daily population of 42 juveniles, and Home Detention monitored an average daily caseload of 151 juveniles.

NEW DETENTION CENTER

Construction of the new Juvenile Detention Center and Juvenile Court Complex at 9300 Quincy Avenue commenced in 2008 and was completed and occupied in October 2011. Resident bed space increased from 72 at the old facility to 180 at the new facility. The increased space in the new Detention Center alleviated constant overcrowding and provided residents with many new programming opportunities. Operational planning included the development of a new Detention Management System.

POPULATION

Detention Admission Screening Officers score all juveniles arrested by law enforcement to determine eligibility for admission to secure detention using a Detention Admission Screening Instrument (DASI). Admission is restricted to the most serious offenders. The Admission Screening Unit scans and emails police reports to on-call Assistant County Prosecutors after business hours to improve efficiency in the admission process of juveniles.

As an alternative to Detention, selected residents are placed in the community while awaiting hearings, either in shelter care or on home detention. Home Detention Officers can provide electronic monitoring surveillance 24-hours-per-day, seven-days-a-week, so violations can be addressed as they occur. Technology now allows the electronic monitoring of juveniles who do not have telephone landlines. The Juvenile Court has also added active GPS surveillance, in order to track the whereabouts of designated juveniles in real time.

DETENTION SERVICES

HOUSING UNITS

In the Housing Units, there has been an increase in programming to educate the residents and provide them with positive reinforcement. Newly admitted residents are provided a thorough orientation by their assigned Social Worker, Unit Manager and Detention Officers. The Social Worker provides information pertaining to Court related detention procedures. The Unit Manager and Detention Officers provide information about the daily schedule, including school, activities, programs, medical, dental, and mental health services, visitation schedules, religious services and special programming. They are also given information about the Behavior Management program, detention rules and sanctions, and the Social Climate Quality-of-Life survey conducted twice each year.

Housing Unit 1 holds older teenage boys. Community volunteers work with the residents to help in their development and growth. The Unit Activity Assistants and Social Workers provide structured programming, using skill development to encourage the interest of the residents in arts and crafts, computer lab, library reading, letter writing, behavior management, basketball tournaments, ping pong tournaments, cooking classes and life skills.

Housing Unit 2 holds middle teenage boys. Like the other Housing Units, residents participate in a number of programs and activities to assist in their growth and development. These activities are facilitated by the Activity Assistant, Detention Officers, interns and community volunteers. The residents enjoy basketball tournaments, educational tutoring, music therapy, letter writing and guest speakers.

Housing Unit 3 holds the oldest boys. Community volunteers on this unit include college students who tutor the residents and interns who work with residents of the unit. Additional volunteers help the residents with jobs and support once they leave the facility. Unit activities include strong fatherhood programming, religious activities, substance abuse awareness, and gym activities for large and small muscle exercise, including basketball tournaments and weight lifting.

DETENTION SERVICES

HOUSING UNITS (CONTINUED)

Housing Unit 4 holds the youngest boys. Activity programming continues to increasingly focus on improving behavior. Residents appear to be more receptive to focusing and listening, participating with Project Safe, tutoring, letter writing, games, and sports activities to help demonstrate good team spirit and play time. The positive Behavior Management program strengthens the growth and development of the residents. Other activities include after-school tutoring, health education programs and music appreciation, conducted by community volunteers.

Housing Unit 5 holds the girls and has a strong program to assist them in growth and development. Community volunteers work with the residents in life skills, arts and crafts, and behavior management. The girls continue to be involved in numerous activities including inspirational speaker presentations, church services, group activities, reading time, gym activity and exercises, hair styling, grief counseling, library time, school tutoring, 4-H Club and Project Safe.

Residents throughout the Detention Center continue to rate their quality of life at the Detention Center as very good, based on their responses to a Social Climate Quality of Life survey.

VOLUNTEER SERVICES

A variety of community volunteers provide programming in the areas of life skills. Substance abuse awareness, health and hygiene counseling, arts and crafts, anger management, job preparedness for employment, and conflict resolution, continue to be instrumental in the growth and development of the residents of the Detention Center.

Community leaders, athletes, and military personnel give motivational presentations and entertainers present plays throughout the year. Community organizations provide after-school tutoring to help residents improve in their educational development.

Before volunteers and college interns can work with residents, they must be cleared through criminal background checks.

DETENTION SERVICES

VOLUNTEER SERVICES (CONTINUED)

Community Volunteer Programs Participating in 2011:

- Murtis Taylor Human Services System Strong Fathers program with collaborative partner, The Cuyahoga County Fatherhood initiative.
The focus of the program is on the universal aspects of fatherhood.
- Students from various universities placed in Detention Center internship positions.
- Religious Services
- Self-Esteem Group Sessions
- Collaborative Initiative to Stop Human Trafficking
- Cleveland Public Theatre sponsored Y-Haven Recovery Program
- Black History Program
- Project Penalty Awareness, Federal Drug Prevention Program
- The Covenant Players, a professional theatre company presenting original theme-based short plays based on conflict resolution.
- Cleveland Institute of Music student performance, Brass Quartet
- Saxophone player, solo performance
- The Dangers of Homelessness
- Peace Alliance - A Fresh Start
- New Door Praise & Worship Center, I'm Coming Out/Emotional Baggage
- Voice of Triumph Choir
- Domestic Violence Center, Teen Dating

DETENTION SERVICES

EDUCATIONAL SERVICES

The Downtown Educational Center is located at the Juvenile Detention Center and the residents attend school on-site. The Cleveland Municipal School District provides a principal, ten core subject teachers, two special education teachers, one physical education teacher, three educational aides, and one secretary. Residents receive school credits for any academic work completed in grades six through twelve from their home school district. The Center also administers the Ohio Graduation and Ohio Achievement Assessment tests and provides an after-school tutoring program for students who need additional instruction. In addition, the Juvenile Court provides for residents, a summer school program with an emphasis on improving reading and math skills.

MEDICAL SERVICES

The Detention Center contracts with the MetroHealth Nursing Department to provide on-site nursing services for residents, 24-hours-a-day, seven-days-a-week. Staffing includes one Managing Registered Nurse, one other Registered Nurse, six Licensed Practical Nurses, and one medical secretary. By contract with MetroHealth, a physician or Nurse Practitioner is also on-site for four hours every weekday, excluding holidays and physicians are on-call when not on the premises.

MetroHealth physicians complete an annual physical examination of all residents within seven days of admission. The medical services unit has been participating in the Ohio Department of Health's Infertility prevention program since 2003, thereby saving the County substantial funds for STD testing and treatment. Residents are also tested for tuberculosis on an annual basis.

Residents are assured of confidential, unimpeded access to medical care by way of staff referrals for emergency care and written health care requests by residents for non-emergency medical needs. Prescribed medications are dispensed to residents three times per day. Special dietary needs due to allergies, pregnancy, etc., are communicated to the food services staff and to the living unit staff. Dental and other specialty care is provided by community providers.

DETENTION SERVICES

MENTAL HEALTH SERVICES

The Cuyahoga County Community Board of Mental Health contracts with Catholic Charities to provide Mental Health Services for Detention Center and shelter care residents. Independent Licensed Social Workers are on-site forty hours each week and are on-call after hours to assist with any mental health crisis. They also provide special training for the Detention Center staff. Psychiatrists are on-site eight hours each week. They provide evaluation, counseling, psychotropic medication referral and monitoring, and crisis intervention, including referrals for hospital admissions.

STAFF TRAINING

All Juvenile Detention employees and contracted staff receive annual mandatory Core Competency training that includes Cardio-Pulmonary Resuscitation and Automatic External Defibrillator, Standard First Aid, Blood-borne Pathogens and Communicable Diseases, Emergency Response (suicide prevention and intervention), Crisis Prevention Institute Verbal De-Escalation and Unarmed Self-Defense, and fire extinguisher training. Staff who directly supervise residents, receive a total of 40 hours annually, in accordance to American Correctional Association Accreditation standards. All newly hired direct service staff receive forty hours of pre-service orientation training and 120 hours of on-the-job training, before assuming their responsibilities.

ACCREDITATION

During 2011, the Juvenile Detention Center continued to meet the American Correctional Association (ACA) accreditation standards awarded for a three-year period in January 2010. The standards address services, programs, and operations essential to effective correctional management. Through accreditation, an agency demonstrates a balance between protecting the public and providing an environment that safeguards the life, health, and safety of staff and offenders.

The auditors found 100% compliance for 28 mandatory standards and 98% compliance for 371 non-mandatory standards, which exceeds the 90% requirement for accreditation.

PROBATION SERVICES

PROBATION INVESTIGATION

Probation Investigation is responsible for conducting an initial risk assessment called the Ohio Youth Assessment System which measures the youth's risk level in addition to preparing a report for the jurist that includes previous charges, family history, school performance, and mental health and substance abuse issues. Investigative Probation Officers also make recommendations for various assessments to evaluate specific issues such as substance abuse, mental health, and sex offending behavior. The Investigative Probation Officer then writes a report detailing all of the collected information and presents a carefully considered recommendation to the jurist that weighs the Court's mission to both protect the community and rehabilitate offenders. The Probation Department has two investigative probation units, Central Probation Investigations and Special Services Investigations. Central Investigations is a general investigative unit whereas Special Services Investigations primarily addresses the detention center population.

PROBATION SUPERVISION

Cuyahoga County Juvenile Court has five probation supervision units. Supervisory Probation Officers are responsible for the ongoing monitoring of youth in the community. Supervisory Probation Officers conduct assessments and develop case plans with youth and families designed to lower the youth's risk to reoffend. Probation Officers engage in a variety of activities with youth and families including home visits, school visits, court hearings, and establishing community and collateral contacts. Additionally, Probation Officers work closely with school officials, law enforcement and community stakeholders to not only address problems and concerns but to link families to their neighborhood and community to foster positive relationships. The Ohio Youth Assessment System is also utilized in supervision in order to track progress and re-assess case planning needs. Probation Officers use a variety of graduated sanctions and rewards aimed at encouraging positive behavior and correcting negative behavior. The overarching goal of community supervision is to provide interventions that identify and develop youth and family strengths while building supports to sustain and support positive change.

PROBATION SERVICES

OHIO YOUTH ASSESSMENT SYSTEM (OYAS)

The OYAS is a Ohio-specific juvenile justice assessment system developed by the Ohio Department of Youth Services, The University of Cincinnati, Ohio juvenile courts, community corrections facilities, and other community programs. The development of this instrument was based on the need to create a risk/needs assessment that provided the juvenile justice system with a standardized process of evaluating the criminogenic needs and risk of the youth. The OYAS contains five assessment tools: Diversion, Detention, Disposition, Residential, and Re-entry. While the tools gives an overall picture of risk to reoffend, the disposition tool also determines the areas that present the greatest risk and are the best predictors of further delinquency. The OYAS gives probation staff the ability to focus interventions on areas of highest risk such as: family and living arrangements, peers and social support networks, education and employment, pro-social skills, substance abuse, mental health, personality, criminal values, beliefs and attitudes.

EFFECTIVE PRACTICE IN COMMUNITY SUPERVISION (EPICS)

The Court's Probation Officers utilize EPICS in all of our interactions with youth and their families. EPICS is a research based model which combines intervention strategies with community supervision. The purpose of EPICS is to structure probation visits with youth in a way that ensures the application of principles of effective intervention in our community supervision practices. The model is designed to use a combination of monitoring, referrals, and face-to-face interactions to provide the youth with the correct dosage of treatment according to risk level and make the best possible use of time to develop a collaborative working relationship. Cuyahoga County Juvenile Probation Staff completed EPICS training in 2011 and have fully implemented the model into daily practice. In 2012, new staff will be trained in the model and staff already trained will have refreshers to ensure our fidelity to the model.

PROBATION SERVICES

SPECIALIZED DOCKETS

During 2011, the court continued its specialized dockets—Juvenile Drug Court, Family Drug Court, Mental Health Court and Re-entry Court. The value of this approach to youth involved in the court system is that the court is able to focus on the special needs of the populations served. The Juvenile Drug Court is a voluntary program for non-violent youth who are substance abusers. This specialty docket requires participants to attend regularly scheduled court hearings, meet with a case manager multiple times a week, and submit to random drug screens. Participants are also required to attend treatment programs. Graduated rewards and sanctions are utilized as juveniles move through the multiple phases of the program.

The Family Drug Court operates similarly to the Delinquency Drug Court but the participants are parents whose children are alleged to be abused, neglected or dependent and the parents are at risk of losing custody of their children because of drug dependency. The intensive program is designed to reduce the time that a child may spend in placement while the parent receives treatment for their substance abuse addiction.

The Mental Health Court focuses on youth who, if not for their mental health status, would most likely not be involved in the court system. Through collaboration with the Cuyahoga County Tapestry System of Care, the youth and families involved in this docket are able to receive community-based supports that enable them to stay in their homes, address their mental health issues, and reduce the possibility of further Court involvement. This year the docket was moved out of it's pilot stage in order to serve more court involved youth.

The Re-entry Court is designed to address the needs of youth returning to the community from Ohio Department of Youth Services (ODYS) institutions. Identified youth who are at high risk for further delinquent activity are selected. The specialized docket provides needed support and intensive supervision through joint efforts with ODYS, Catholic Charities, Justice Affairs and other county agencies for youth and families. Education, employment, and life skills opportunities are provided in an effort to maintain youth safely in their communities.

PROBATION SERVICES

BEHAVIORAL HEALTH JUVENILE JUSTICE (BHJJ)

In the spring of 2006, the Court and its systems partners, the Cuyahoga County Community Mental Health Board, the Alcohol and Drug Addiction Services Board of Cuyahoga County and Family & Children First Council, were awarded a grant by the State of Ohio to provide intensive services to female offenders with co-occurring mental illness and substance abuse diagnoses. In 2009, the program was expanded to serve males. With this expansion an additional forty youth have been served each year. This amount resulted in a total of eighty youths benefitting from the grant. The program continues its success as just one of the youth involved with BHJJ has been committed to the Ohio Department of Youth Services (ODYS). The services provided are: Wraparound Case Management, Multi-Systemic Therapy (MST), In-Home Integrated Co-occurring Treatment, Intensive Outpatient Treatment, Short-Term Inpatient and Residential Treatment. Court Placement Aftercare Coordinators also provided an intensive level of Court supervision for these offenders.

COMMUNITY SERVICE/RESTITUTION PROGRAM

Developed in 1986, the Cuyahoga County Juvenile Court's Community Service Restitution Program was designed to provide positive sanctions giving youth an opportunity to make amends for harm done to victims and the community. The program encourages juvenile probationers to take responsibility for their actions, and can be used as a court-ordered dispositional alternative.

Probationers were assigned to over 180 service sites throughout Cuyahoga County to complete their community service orders. These sites consisted of nursing homes, churches, museums, hunger centers, Boys and Girls' Clubs, libraries, county and municipal agencies, as well as recreation centers and parks.

Community service activities have included painting, litter collection, greeting the public at special events, and interacting with senior citizens by reading and assisting with crafts. The Program also has 42 gardening sites located throughout the county.

After court youth and families attend the scheduled orientation in which they are afforded the opportunity to meet with their assigned coordinator, they receive site placement and information on resources in their community, and earn 2-5 community service hours.

PROBATION SERVICES

COMMUNITY SERVICE/RESTITUTION PROGRAM (CONTINUED)

The total number of community service referrals in 2011 was 1753. Every Saturday an average of 30 youth participate in community service activities.

The average number of community service hours per youth was 40 hours. In 2011, there were 51,265 community service hours completed by juvenile probationers in Cuyahoga County.

In 2006, a program was implemented that allowed youth who owed restitution to earn up to \$400.00 by completing community service hours through the Community Service Program. This gives the youth the opportunity to pay back the victim a portion or all of what they owed. The program has been successful in collecting a total of \$13,528.31 in 2011.

CUYAHOGA TAPESTRY SYSTEM OF CARE

Cuyahoga Tapestry System of Care (CTSOC) began with a grant application to the Substance Abuse and Mental Health Services Administration (SAMHSA) for the development of "Project Tapestry", written and submitted by the Cuyahoga County Community Mental Health Board (CCCMHB) and the Family & Children First Council (FCFC) on behalf of the Board of County Commissioners (BOCC) in the spring of 2003. In April 2007, Cuyahoga Tapestry System of Care expanded and began accepting two specific Juvenile Court populations: Youth charged with domestic violence in the Detention Center or Shelter Care and youth identified by jurist as being at imminent risk of removal from the home. CTSOC provides "High Fidelity" Wraparound to this select group of court-involved youth and their families. The goal of a System of Care "Child and Family Team" is to work together, in the family's neighborhood, building supports and addressing needs using a strengths-based approach. In 2011 the Court had 487 juveniles served by Tapestry System of Care. Tapestry continues to be an important partner with the Court in keeping youth from moving into out-of-home placements.

PROBATION SERVICES

MULTI-SYSTEMIC THERAPY PROGRAM (MST)

The Cuyahoga County Juvenile Court Multi-Systemic Therapy Program has been in existence for over 13 years. The program employs seven therapists and one manager, and serves over 120 youth and families per year with an 87% success rate.

The MST Program is a unique, goal oriented, comprehensive program designed to serve youth with multiple problems in their communities. MST is a community-based program that has been cost effective for youth with complex emotional, social and academic needs.

MST utilizes a home-based model whereby therapists provide intensive services within the family's ecology including the home, school, and community. Therapists are available 24-hours-per-day, seven-days-a-week. Each therapist has a case load size of 4-6 families to allow for the necessary intensity. The average length of treatment is between 3-5 months.

Each MST team has a supervisor and an expert consultant from the Center for Innovative Practice who consults weekly on all cases. MST is effective in reducing anti social behaviors and recidivism. The MST model increases parenting skills, improves school behaviors limiting truancy and academic problems. It assists in decreasing criminal behavior as well as substance abuse and association with negative peers.

MST provides youth/families with a complete assessment of the youth with emphasis placed on their family system, school and community. The MST therapist focuses on understanding the "fit" of the child's/family's issues and how to best resolve them.

In addition, MST focuses on assisting parents in building support systems and social networks within their community and empowers them to address their family's needs more effectively. A heavy emphasis is placed on ensuring the family's ability to sustain the positive changes and avoid recidivism once the therapy has ended.

PROBATION SERVICES

PLACEMENT AFTER CARE

Residential placement is out-of-home therapeutic placement for youth needing the most intensive level of services. All of the facilities used by the Court are licensed by the State of Ohio and are staff secure, providing intensive counseling and supervision 24-hours-a-day, 7-days-a-week. Youth placed in residential treatment are typically youngsters who have not adjusted well to community-based services. Removing a youth from his/her home is always a difficult decision. The Court's goal is to work with youth and their families in the least restrictive environment and to only place a youth out of home after community-based resources have been exhausted. Services in placement include, but are not limited to:

- Individual, group, anger management, sex offender, chemical dependency, and family counseling.
- Mental health care, psychological and psychiatric evaluations and monitoring.
- Medication evaluation and monitoring.
- Educational services including special education, GED preparation and vocational education.

Upon discharge, the youth and family are provided with Court Aftercare supervision. Aftercare supervision is an intensive level of supervision that gradually gives the youth more freedom and responsibility. Aftercare planning starts even before the youth is placed. During the early part of Aftercare, the youth and family have weekly contact with the Court Placement Aftercare Coordinator and are also involved with other specialized counseling specific to the needs of the youth and family. By the end of Aftercare, contact with Court and system representatives is monthly and the family and youth have built community supports and resources outside of the system. The hope is that these new supports and resources will prevent further system involvement in the future.

PROBATION SERVICES

SCHOOL BASED PROBATION

In May 2003, the Court received a Project Safe Neighborhood Grant through the U.S. Bureau of Justice Assistance, in conjunction with Ohio Criminal Justice Services to fund a School-based Probation Violent Offender Project. The project involved a collaborative effort with the Cleveland Municipal School District (CMSD), the Cleveland Police Departments First and Sixth Districts, and the Cuyahoga County Juvenile Court. After the grant period ended due to the success of the program, the project was sustained by RECLAIM Ohio funding. The Probation Department has placed School-based Liaisons (SBL) in the following Cleveland Municipal School District (CMSD) High Schools: Glenville, John Marshall, East Tech and John F. Kennedy. The Cleveland Heights/ University Heights District, recognizing the value of the project, provided funding in 2010 to place an officer in Cleveland Heights High. The intent is to provide intensive probation supervision within the immediate environment of juvenile offenders attending these schools, sharing information with school and law enforcement officials. Probationers are seen on a daily basis. With a goal of increasing parental involvement, the School-based Liaison will participate in probationers' Individual Educational Plans and Individual Behavioral Plans. The SBL may become involved with school social workers in pro-social skill group sessions. The expectation is to reduce recidivism and truancy, and assist youth in developing positive pro-social skill behavior. School-based Liaisons work closely with the Cleveland Police Department especially with respect to youth-at-risk and youth absconding. Probation Staff have received special training in order to work effectively in this collaborative Project Safe Neighborhood endeavor.

PROBATION SERVICES

STRATEGIC PLANNING AND GRANTS MANAGEMENT

Although an integral part of the Probation Department, the Strategic Planning and Grants Management unit works with all departments of the Court, managing program planning, grants, contracts, and invoicing at the Court. As Court personnel look to bring new best-practice programming to youth or to enhance current programs, Grants Management staff develop the grant documents and programming, and then oversee all the grant data and reporting requirements. In addition, when the Court is looking for community-based service providers, the Grant Management unit pulls together key Court personnel to manage the Request for Proposal process.

In addition, Grants Management monitors programs to ensure contract compliance and program fidelity, working closely with service providers to ensure that program referral, service delivery and invoicing is smooth and efficient. Monitoring programs also involves data collection and analysis of program usage and program effectiveness; which is key when considering continuation of youth programs.

Lastly, the Grants Management staff oversee the Court Unruly Program and the ODYS Population Management program. Both programs work to maximize Court resources in order to minimize Court involvement for youth diverted from formal Court action or, respectively, sentenced to the Ohio Department of Youth Services.

COURT UNRULY PROGRAM

The Court Unruly Program involves contracted providers in completing in-home assessments and individualized service plans as well as case management services for all youth whose unruly cases have been diverted from formal Court action by Court Intake Officers.

The Court has learned that the following objectives are essential to any successful youth unruly diversion program:

- Be family-centered; driven by the needs of the youth and their families, and built on the strengths of the family.
- Empower parents to take responsibility for the needs of their families and support and enhance the parent-youth relationship, while recognizing that youth in this program are best served through diversion from formal Court processing.

PROBATION SERVICES

COURT UNRULY PROGRAM (CONTINUED)

- Be comprehensive and holistic, using a wraparound approach to meet the youth and family's most critical needs, and developing a continuum of resources.
- Strengthen the ability of participating youth and their families to help themselves.
- Be available and accessible to the youth and families, using a variety of private, community and personal resources to create the best use of services.

The Court Unruly Program includes the in-home assessment, Individualized Service Plan and case management service.

QUALITY ASSURANCE AND PERFORMANCE MEASUREMENTS

Newly created in the Strategic Planning and Grants Management unit is a quality assurance and performance measurement focus. Looking initially at probation activities, including individual probation office day-to-day work standards and probation unit-operated youth programs, these activities strive to meet minimum standards for probation-youth-contacts, completion of case plans, case plan reviews, and case file completion, among other traditional probation activities. In addition, each probation unit has identified targets for improvement within their own units that will be monitored through identified activities throughout the year. These activities are enhanced through a number of training opportunities for probation officers that will assist them in meeting the needs of the youth and their families more efficiently, with an end goal of reducing the time youth spend on probation while increasing the number of successful probation terminations.

PROBATION SERVICES

COGNITIVE BEHAVIOR THERAPY (CBT)

The Cognitive Behavior Therapy (CBT) program is an evidenced based intensive day treatment program. This program has been successful in assisting youth to make pro social choices and reduce recidivism. The CBT program employs 7 staff, all trained and certified to facilitate groups delivering cognitive behavioral therapy. The program has a capacity to treat 25 youth at any one time.

The Cognitive Behavior Therapy program is based on the curriculum "*Thinking for a Change*". There are two distinct parts to the curriculum consisting of cognitive restructuring and social skill interventions which build upon one another and lay the foundation for problem solving. The program takes approximately 3 months for a youth to complete.

The CBT program is designed to target youth who are assessed to be moderate to high risk youth. The assessment tool used in qualifying a youth in the OYAS. Youth are also assessed at the beginning and end of the program using the Criminal Thinking Scales. The program addresses the criminogenic thinking patterns/behaviors that have impacted the youth's abilities to function as a productive part of society.

The University of Cincinnati has consulted and trained court staff to deliver the curriculum.

COURT SERVICES

COURT SERVICES DEPARTMENT

The Court Services Department is responsible for all of the legal and clerking functions, information services and other activities necessary to ensure that court hearing processes are executed in a timely, comprehensive, and effective manner.

The Department has many units. In addition to the six elected Judges to whom all of the cases filed with Court are assigned, there are twenty-one full-time magistrates. Together, the jurists resolve the delinquency, unruly, juvenile traffic, custody, support, visitation, dependency, abuse, neglect, parent-child relationship, and waiver of parental notification matters that are filed.

Much time and effort was spent during 2011 planning for the move to the Juvenile Justice Center at 9300 Quincy Avenue. The move has resulted in many positive changes:

- The Court's twenty-one full magistrates now conduct hearings in courtrooms rather than in their offices.
- There is adequate waiting space for the citizens of Cuyahoga County who participate in hearings.
- Attorneys can now consult privately with their clients as ample conference rooms are available for this purpose.
- All hearings are now conducted in one location, rather than the previous three.
- The Juvenile Justice Center is more secure and safe.

DIAGNOSTIC CLINIC

The Clinic's psychologists perform high quality forensic mental health evaluations on youth and/or families who have matters pending before the Court. In 2011, fourteen consulting psychologists who work at the Court a minimum of one to a dozen days each month, numerous interns and fellows and one psychometrist, completed 693 evaluations. As a result of increased efficiencies, evaluations regarding youth in secure detention are now available to the Court's jurists within thirteen calendar days.

COURT SERVICES

DOCKET INITIATIVES

Purge Review Hearings:

In 2011, the Court modified its procedure for handling contempt, execution of sentence and purge review hearings. Prior to the change, when the Prosecutor's Office decided to request that the Court execute a suspended sentence for a defendant who was previously found in contempt and did not fulfill the purge requirement, the Prosecutor's Office filed a Motion to Execute Sentence. Once the motion was filed, the Court issued summons on the parties and waited until good service was returned before the Court scheduled a hearing. If service was not completed, the Court was unable to issue a *capias* and the case eventually was dismissed.

As a result of the modified process, when a defendant in a support enforcement case is found in contempt and a purge order is issued, the Court enters said findings and sets forth the sentence and the purge conditions. During the same hearing and within the same resulting entry, the Enforcement Magistrate is assigned a day on the Visiting Judge's docket for setting purge review hearings. The Court schedules the purge review hearing approximately nine months after the contempt hearing. A "Notice of Hearing" form is completed and signed by the parties. The Courtroom issuing the "Notice of Hearing" form scans the "Hearing Notice" into and enters the hearing date into *iCase*.

Pursuant to the former procedure, if the obligor continued to fail in his or her efforts to pay support and did not meet the requirements of the purge order, the Clerk's Office was required to accept for filing the Prosecutor's Motion to Execute Sentence. The Clerk processed the motion, issued summonses on the parties, awaited returns of good service and then issued notices of hearing. If either the summons or the later notice of hearing was returned undeliverable, the jurist was unable/unwilling to issue a *capias* and the matter was referred for further attempts at service of summons or notice. This often led to cases being further continued or dismissed. With the new process, all of these additional efforts relating to the filing of a new Motion to Execute Sentence are eliminated, saving the Court and the Prosecutor's Office time and money, while simultaneously ensuring that the parties' rights to due process are protected.

COURT SERVICES

DOCKET INITIATIVES (CONTINUED)

Video Teleconferencing:

What began in 2010 as a grant-funded pilot project with the Ohio Department of Youth Services designed to increase video teleconferencing around Ohio, expanded to wide spread use in 2011 in the Judges' courtrooms. Video teleconferencing equipment is now used to conduct hearings involving youths committed to DYS, rather than being required to transport the hearing participants to the Court for hearings. This project now permits the Court to save a significant amount of money that was formerly spent on driving to various DYS locations to retrieve children for hearings and then returning them to their assigned facilities.

INFORMATION SERVICES (IS)

Over 525 case information system users are given training and direct desktop and network support by Information Services' staff. Standard and ad hoc data and statistical reports are also produced.

In 2009, Information Services began working with some of the police departments in Cuyahoga County, setting up online access to *iCase*, the Court's case information system. In addition to other concerns, police officials argue that with many juveniles being the subjects of warrants and committing more serious delinquencies, there is a heightened need as police make routine traffic stops, to know in advance who they are approaching. Information Services' personnel have installed *iCase* in 90 police departments in Cuyahoga County. Specific officers in those municipalities have been trained to access case information using *iCase*.

In 2011, the Information Services unit was reorganized. Two positions were eliminated and existing members of the unit took on additional responsibilities, saving the Court approximately \$100,000.00 annually. A senior developer was hired, obviating the need to have a maintenance agreement to maintain the Court's case information system, saving several hundred thousand dollars per year. During the move from the Court's former locations to the Juvenile Justice Center, the Court utilized IT staff to move the servers, computers, printers and monitors in lieu of hiring a moving company, saving additional money.

COURT SERVICES

INTAKE & DIVERSION

Intake & diversion receives referrals from law enforcement, parents, citizens, agencies, etc., and reviews them to determine probable cause and jurisdiction of alleged delinquent and/or unruly acts. Intake & Diversion Officers are responsible for making appropriate decisions regarding whether to officially file or to divert cases and they must prepare and process complaints. Intake & Diversion Officers conduct mediation hearings and informal hearings to resolve bypassed matters. Intake & Diversion Officers also make appropriate referrals to the Court's Unruly Diversion Program.

COMMUNITY DIVERSION PROGRAMS (CDP)

Commenced in 1998, this Court supported community-based sanction program diverts first time misdemeanor and status offenders from official court action. The program permits communities to tailor treatment and penalties to fit the needs of the individual juvenile and the concerns and safety of the community, as well as offering youth the opportunity to avoid an official juvenile court record. The primary goal of the CDP is to make a juvenile's first offense, his or her last offense. The program is designed to decrease negative conduct and promote positive behavior.

The Court refers eligible candidates for diversion to the appropriate Community Diversion Program. In 2011, fifty programs served fifty-two communities in Cuyahoga County.

CLERK'S OFFICE

The Clerk's Office is responsible for managing all documents filed with the Court in every action or proceeding commenced in the Court of Common Pleas–Juvenile Court Division.

The Legal Service Clerks accept for filing motions and pleadings pertaining to child support, abuse/neglect/dependency, traffic, delinquency, custody, certifications, bypass, unruly, power of attorney and caregiver issues. They also commence case initiation by recording the fact of the filing, entering data in iCase, the Juvenile Court's case information system. The information includes summonses, notices and subpoenas, issuing service and entering return service on all case types.

COURT SERVICES

CLERK'S OFFICE (CONTINUED)

The legal service clerks also scan and proof the cases entered into electronic case files stored within the case management system, ensure the proper judicial assignment of cases and forward the filings to the assigned jurists for appropriate action. The legal services clerks also process requests for information, transcripts, and appeals.

Journal Clerks are assigned the task of journalizing and mailing out various orders of judges and magistrates including transfers, warrants, bindovers, and lump sums. The journal clerks issue warrants, process fee bills, surety bonds with arrests, civil protection orders, support modifications, emancipations and terminations. They are also responsible for updating the paternity registry.

To further the Court's goal of becoming paperless, all filings are electronically scanned and electronic versions of the filings and associated pleadings are available to the Court's jurists and other information system users via the Court's case information system, *iCase*.

Scanning clerks prepare documents to be scanned, operate microfilm and scanning equipment, accessing and track the location of court files.

LEGAL

Staff Attorneys respond to legal research inquiries from the bench and Court Administration, provide frequent updates regarding Appellate and Supreme Court decisions, educate the jurists with respect to statutory changes, and assist with public records requests. The Court's Staff Attorneys also serve as magistrates.

In 2011, the Ohio legislature passed H.B. 86 which: 1) created new competency rules and procedures for juveniles and 2) altered the process related to relinquishing juvenile court jurisdiction for purposes of criminal prosecution in the General Division of the Court of Common Pleas.

The staff attorneys conducted in-depth analyses of the new rules and created detailed manuals for the judges and delinquency magistrates, which include bench guides and charts. New journal entries were crafted and the staff attorneys instructed the jurists regarding the requirements of the competency rules.

Table VIII: Ohio Department of Youth Services 2011 Commitments

The Year in Review: In 2011, the Cuyahoga County Juvenile Court committed 164 juveniles (129 delinquencies and 35 revocations) to the Ohio Department of Youth Services (ODYS). Among the delinquency charges, robbery offenses accounted for the highest number of commitments, followed by assault and burglary. These three offense types accounted for 71.3% of all delinquency commitments. The 164 juveniles committed to ODYS, in 2011, represented a 11.4% decrease from 2010.
