

2018

ANNUAL REPORT

**Cuyahoga County
Court of Common Pleas-
Juvenile Division**

ANNUAL REPORT COVER ART

Hand in Hand

Art Forward, is a Juvenile Court Volunteer Services sponsored program designed to connect Case Western Reserve University students with residents at the Cuyahoga County Juvenile Detention Center via monthly art projects.

The group's purpose is to promote empathy, creativity, and theoretically therapeutic self-reflection.

In November 2018, Art Forward, held an exhibit at Case Western Reserve University displaying the words and artwork of Cuyahoga County Juvenile Detention Center residents. The event's purpose was to share the residents perspectives and to appreciate art as a universal medium.

Attendees of the exhibit were asked to paint a miniature canvas inspired by the art work and words of the detention center residents, which resulted in the cover art entitled "Hand in Hand". The idea behind the cover art is that our individual differences make us stronger. When we are open to sharing our ideas and abilities without judgment, we can better make positive change.

Art Forward was founded by Case Western Reserve University students, Jasmine Lee and Maya Nayak, in the Fall of 2017.

President, Cuyahoga County Council

Ryan Gies,
Director, Ohio Department of Youth Services

Greetings:

2018 was an interesting year for the juvenile court. On Monday, January 8th, boys in one of the detention center pods began tossing games and clothes up in the air. After nobody stopped them, they started to throw the plastic furniture in the air. Still nobody stopped them, and one or two boys broke off the metal leg from a table and began hitting the windows with it. The sheriffs and the SWAT team were called, and order was finally restored. A resident and an officer accidentally cut themselves on broken glass after the incident was over, but there were no other injuries.

OPEN LETTER

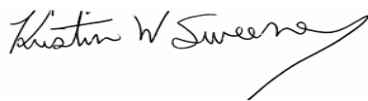

This incident was the final catalyst for serious, long term changes in the way the juvenile detention center was managed and operated. There were changes in detention center leadership, in detention officer training, and most significantly, outside help was brought in to help us create long term plans to achieve safety and respect the dignity of the residents living in our facility from a child focused perspective. The ACLU, and the Juvenile Justice Coalition connected the court with the Center for Children's Law and Policy and secured funding for that help through the Gund Foundation. Court Administrator Tess Neff deserves a tremendous amount of credit for setting us on the course to work with Mark Soler and his team from the Center for Child's Law and Policy. Over the summer, they came and spent several days reviewing our facility from top to bottom and came up with a list of issues and priorities. The court has been working ever since to address them.

The Court also created the Intervention Center Steering Committee and spent the year preparing to open the new Intervention Center in 2019. The Steering Committee included the Alcohol, Drug Addiction and Mental Health Services (ADAMHS) Board, the County Prosecutor's Office, the County Public Defender's Office, the Department of Children and Family Services, the Cleveland Police Department, the Educational Service Center of Northeast Ohio, the Ohio Department of Youth Services (ODYS), a parent representative, and other community members. The committee worked hard to create a new process to connect youth to services as quickly as possible from the time the youth came to the attention of law enforcement. This work was done with the financial support of the ODYS. We also began reaching out to the Community Diversion Programs in order to collaborate with them more effectively. Surveys were sent out to all 53 programs to find out what services they offer and what their programs look like. When those results came back, phone interviews were then conducted by the court with each program as a follow up and to hear the questions and concerns of the programs themselves. We are hopeful that through front loading services through effective collaboration, we can continue to improve outcomes for our youth and communities in a cost effective and efficient manner.

Finally, the court continues to see a sharp increase in the number of abuse, neglect and custody cases filed, and a sharp decline in the number of delinquency cases filed over the last year. It will be interesting to see whether these trends continue or change course over the coming years.

Along with the report of our achievements, I hereby submit, in compliance with Ohio Revised Code Sections 2151.18 and 2151.71, the 2018 Annual Report of the Cuyahoga County Juvenile Court regarding the number and kinds of cases coming before it, their dispositions and other data pertaining to the work of the Court.

Respectfully submitted,

Kristin W. Sweeney, Administrative Judge

DETENTION SERVICES

DETENTION SERVICES

Detention Services is responsible for the care of all juveniles in the secure detention continuum. During 2018 the Detention Center had an annual daily population of 125 juveniles. The Detention Center continuum consists of Secure Detention, Shelter Care and Home Detention. Shelter Care had an average daily population of 22 juveniles, and Home Detention monitored an average caseload of 98 juveniles.

STAFFING

Several positions were established and the job descriptions for several positions that already existed were reviewed.

Staffing changes for 2018 included:

- Deputy Director's job descriptions were updated. The update provided a delineation of job duties and responsibilities and also provided more specificity to job functions. The enhancements applied to all three Deputy Director positions and related to programming, safety and security and administration.
- The positions of Due Process Manager and Hearing Officers were created to ensure that Detention Center residents' due process rights are recognized and preserved for when necessary.
- A Training Manager position that is strictly dedicated to the Detention Center was approved. The Training Manager will be responsible for managing and overseeing the training needs of the Detention Center. The Training Manager will also manage and maintain the training records and scheduling for staff and ensure compliance with applicable training standards.
- A Director of Detention Services was hired. The Director is responsible for managing and directing the staff and operations of the Detention Center.

HOUSING UNITS

The Detention Center instituted unit management to provide better building coverage. Unit Managers now provide oversight of the entire building and typically work in pairs to ensure better building coverage. Additionally, Managers are required to be positioned on the secure side of the building so they can consistently monitor the interactions of both staff and youth.

The housing units were painted with graffiti proof paint which was chosen to deter property destruction and also provide a warmer youth friendly environment for residents.

The Detention Center began using Housing Unit 4 as an overflow unit dedicated to male residents. This will allow for more effective resident stabilization and de-escalation for youth with special needs or significant behavior issues.

EDUCATION SERVICES

During the 2017/2018 school year the Cleveland Metropolitan School District served 1,120 un-duplicated students. This was slightly down from the previous year and the decrease was attributable to a decrease in the Detention Center's population count. During 2018, 22 of the Center's residents graduated while in the Detention Center.

DETENTION SERVICES

STAFF TRAINING

Staff received training from Cuyahoga Community College Public Training Center personnel. This training consisted of new and refresher training in subjects such as; Administration, Legal, Security, Human Relations, Medical, First Aid/CPR/AED and Subject Control techniques. This training will enable staff to effectively service the resident population and enable managerial staff to devote more time to detention operations.

Detention Center staff was cross trained in several Detention Officer posts and responsibilities. This will enable staff to assist fellow Detention Center Officers and improve the delivery of services to the residents and to the general public.

DETENTION SERVICES MANAGEMENT AND OPERATIONS

Town Hall meetings between the Director and staff were initiated to discuss concerns and possible changes in the operations of the facility. This interaction has improved communication. Staff also has a suggestion box available to them so that they can make suggestions for improvement.

The attire of the Social Service Coordinators was changed from the formal Detention Officer uniform to business casual attire. This change was made to facilitate the working relationship and interaction between residents and the Social Service Coordinators. The change was designed to facilitate the Social Service Coordinators in taking a more active role in advocating for residents in custody.

Daily Briefing meetings were implemented to update staff on the resident population, staffing levels, major incidents, security risk groups, and youth with mental health issues, scheduled activities and other significant events that might impact operations, staffing levels or the residents.

A Detention Center Disciplinary Committee was formed in conjunction with the Human Resources Department to meet weekly to discuss and make recommendations on potential employee discipline. The process was initiated to ensure that staff is held accountable, ensure that management is consistent with any sanctions and encourage performance and increased efficiency.

The use of hand held video cameras was initiated to record incidents. This enables detention staff to record interactions with residents.

ENHANCEMENTS FOR RESIDENTS

Resident's received clothing upgrades which included the purchase of black flip flops for the residents to wear. The Detention Center is in the process of transitioning from "jail like jump suits" to uniforms that are softer and more resident friendly.

A Youth Advisory Council was created so that youth could meet biweekly with the Director of Detention Services to communicate concerns with programming and make suggestions and recommendations to strengthen the morale of the detained youth.

DETENTION SERVICES

VOLUNTEER SERVICES

A variety of community volunteers provide programming in the areas of life and social skills. Substance abuse awareness, health education, creative writing, cooking, arts and crafts, anger management, job readiness, social emotional learning, tutoring and hands on activities for residents continue to be instrumental in their mental and emotional development.

Community members, leaders, professionals, and athletes, give motivational presentations and entertainers present plays throughout the year. Community organizations provide after-school tutoring to help residents improve their educational development.

Before volunteers and college interns can work with residents, they must be cleared through criminal background checks.

Michael K. Williams, Actor, Producer & Juvenile Justice Advocate screened the documentary **“Raised in the System”** (photo at right) focusing on juveniles and their pathways into the system. The film also explores alternative models of juvenile justice that offer more hope for rehabilitation instead of incarceration. A panel discussion followed which included formerly incarcerated individuals sharing their successful reentry stories.

CWRU Art Forward Student Club provided residents exposure to the arts through simple reflection art projects. The CWRU students/resident activity is a barrier breaker and defies stereotypes. An art exhibit supported by the University Programming Board held at the CWRU Thwing Student Center featured the CCJDC residents’ artwork (photo at left).

Cleveland Public Theatre and Y-Haven Theatre Project presented the play **“Outside The Mirror”** questioning our ability to see the consequences of our choices and whether our future is decided by actions of today or set by facts. The actors were residents of Y-Haven Transitional Housing, a treatment facility for formerly homeless men recovering from substance abuse and mental health challenges.

Residents enjoyed the **Jump-Move-Flash Health & Wellness Fair** at the CCJDC sponsored by **Buckeye HEAL - The Healthy Eating and Active Living (HEAL) Initiative**. A community partnership working to make healthy eating and active living a part of the culture and everyday living in the Buckeye, Larchmere, and Woodland Hills neighborhoods. The wellness fair engaged and empowered our detained youth to increase their abilities and sense of self-worth.

Barber Days sponsored by community partners, **Building Leadership Academies & Service (B.L.A.S.)**, **Hotz Cut**, an awarding winning barber shop and licensed barber **Cecil Abbott** offered personalized grooming services (photo at left).

“Our Deepest Fear” an original skit written & directed by **Daryl Rogers** tells of a father’s heartfelt efforts to break the cycle of incarceration that could ruin his son’s life. The play was part of the **CCJJC Volunteer Services Speakers Series**.

DETENTION SERVICES

VOLUNTEER SERVICES (CONTINUED)

THIS IS ME-CCJDC Residents' Art Exhibition sponsored by Partnership For A Safer Cleveland, A Voices of Change, and Cynthia Smith, Artist-in-Residence. The art exhibit curated by Laura Calhoun, Shepard Higher Education Poverty (SHEP) Student Summer Intern, was located in the Great Hall of CCJJC for visitors and employees to view the residents' creative expressions (photo at right). The SHEP student interns learn first-hand about the multiple dimensions of poverty in the United States by working for eight weeks to strengthen impoverished communities and working alongside individuals seeking to improve their communities.

Chef Jonathan Benson cooking demonstrations (photo at left) focused on fresh ingredients and his journey to becoming an executive chef for a major medical facility and eventually being the owner of **JA`SARAI Catering Company**. Residents also learned of future job opportunities within the culinary industry.

The **Summer Enrichment** service providers, are not volunteers. They focused on life skills, creative expression and alternative learning opportunities. **Cleveland Rise** introduced small business development and responsibility. **Cuyahoga County Health Department** shared vital information to prevent early parenthood, how to identify healthy relationships, and exploring the role of gender behavior. Integrated artistic expression and physical activities provided by **Karamu House** exposed social, emotional and concentration skills through music and movement.

Golden Ciphers, Inc. held a workshop for residents to make their own drums used as a coping skill for anger management and or stress release.

The **Stokes Scholars** observed court hearings followed by a question and answer session with **Judge Michael J. Ryan**. The group also toured the Detention Center. The **Stokes Scholars Program** is a diversity initiative, under the auspices of the **Cleveland Metropolitan Bar Association**, to get minority students who are in college interested in careers in the law.

Antioch Baptist Church Ministry Awards Dinner and **Evangelize Ministries** recognized the Cuyahoga County Juvenile Detention Center for "**Outstanding Service as our Ministry Partner**". The award was in appreciation for the **Open Door Fellowship Prison Ministry Juvenile Justice** team's nearly 10 years of service supporting the CCJDC residents efforts to move forward in a positive direction.

The Cuyahoga County Juvenile Detention Center hosted and conducted a tour for 20 international visitors representing 20 different countries from the **Cleveland Council of World Affairs**. The Detention Center was a "must see" stop for the group as part of their US travels to learn about the Juvenile Justice system.

Magistrate Brenda Gray (photo at right) welcomed the international visitors to her courtroom, where she explained the arraignment process and answered their questions.

DETENTION SERVICES

VOLUNTEER SERVICES (CONTINUED)

Annual Residents' Thanksgiving and Christmas dinners sponsored by local Cleveland churches with the support of prepared food and dessert donations. **Thanksgiving Day, Zanzibar Soul Fusion restaurant and Olivet Institutional Baptist Church** served residents and staff a home-cooked meal. **Good Friday Services** co-sponsored by **Elizabeth Baptist Church and Bethany Baptist Church** included fellowship services with volunteers and youth treated to desserts.

"Back-To-School Beauty & Barber Day" sponsored by **Steven Richardson, Founder & CEO., Building Leadership Academics & Service (B.L.A.S.), Cecil Abbott, Nu Image Barber Shop, Hotz Cuts Barber Shop staff and Tanisha Bryant, Stylist & Owner, Hair Café,** provided grooming services for male and female residents.

Producer and Director Santiago Rizzi provided private screenings at the detention center (photo at left) of his acclaimed film **"Quest"**. The film was featured at the **42nd Cleveland International Film Festival**. The film depicted, in part, his coming of age story and was based on much of his own life experiences. The film was a moving story of one teacher's unwavering dedication to a student in desperate need of love.

Tammara Caldwell-Willis, Founder, Visions Revealed, Inc. facilitated vision board workshops for male and female detention residents. The residents were tasked to create and personalize a vision board. (example in photo at right). The vision boards created by the resident reflected their goals, their hopes and desires for a successful reentry to their communities, families and lives.

Kappa Alpha Psi Gamma Tau chapter fraternity conducted weekend sessions which focused on character building and the importance of education.

Kent State University Male Empowerment Network student organization held roundtable discussions on college life, overcoming adversities and positive thinking process.

Imani Reynolds, Intern, Kent State University, Human Development Family Studies, served as a liaison to **Kent State University** student groups' whose goals was to implement self-empowerment sessions for youth held within the detention center.

Music Therapy was provided by **Cleveland State University** students.

The Sacred Mat yoga instructors conducted sessions that taught stress reduction techniques to detention center residents on a periodic basis.

A Vision of Change shared the importance of nutrition and fitness.

Spell Master, is an interactive game, where the residents were able to improve their reading comprehension and increase their knowledge of facts, while having fun participating in the game.

COURT ADMINISTRATION DIVISION

COURT ADMINISTRATION DIVISION

The Court Administration Division consists of Probation Services, Operations, Programming, Training & Quality Assurance Unit and the Diagnostic Clinic.

PROBATION INVESTIGATION

Probation Investigation is responsible for conducting an initial risk assessment called the Ohio Youth Assessment System (OYAS), which measures the youth's risk level in addition to preparing a report for the jurist that includes previous charges, family history, school performance, mental health, and substance abuse issues. Investigative Probation Officers also make recommendations for various assessments to evaluate specific issues, such as substance abuse, mental health, and sex offending behavior. The Investigative Probation Officer then writes a report detailing all of the collected information and presents a carefully considered recommendation to the jurist that weighs the Court's mission to both protect the community and rehabilitate juvenile offenders. The Probation Department has two investigative probation units: Central Probation Investigations and Special Services Investigations.

PROBATION SUPERVISION

Cuyahoga County Juvenile Court has five probation supervision units. Supervisory Probation Officers are responsible for the ongoing monitoring of youth in the community. Supervisory Probation Officers conduct assessments and develop case plans with youth and families designed to lower the youth's risk to reoffend. Probation Officers are well trained in the use of Effective Practice in Community Supervision (EPICS) and Motivational Interviewing (MI) to engage youths and families. Probation Officers participate in a variety of activities with youth and families, including home visits, school visits, court hearings, and community and collateral contacts. Additionally, Probation Officers work closely with school officials, law enforcement, and community stakeholders to not only address problems and concerns, but to also link families to their neighborhood and community to foster positive relationships. The Ohio Youth Assessment System (OYAS) is also utilized in supervision to track progress and reassess case planning needs. Probation Officers use a variety of graduated sanctions and rewards aimed at encouraging positive behavior and correcting negative behavior. The overarching goal of community supervision is to provide interventions that identify and develop youth and family strengths while building supports to sustain and support positive change.

PROBATION SUPPORT SERVICES

The essential purpose of this unit is to provide support to families and youth being placed on probation. This unit is responsible for assisting court room staff, including the jurist, probation officers, and youth, along with their families, to ensure accurate interpretation of the Court's probation orders. Youths who are adjudicated delinquent for committing a felony offense are required to submit DNA samples; this unit submits those samples to the Ohio Bureau of Criminal Identification and Investigation. When a youth is committed to ODYS, this unit will interview the youth's family, prepare the required documents, and facilitate the approval process for the youth's admission and transportation. The unit provides customer service and probation information for incoming calls through the court's general phone line. Social history records are created, maintained, and tracked for accountability within the unit. It is also the responsibility of this unit to destroy records based on sealing and expungement requests or reaching the age of majority.

COURT ADMINISTRATION DIVISION

OHIO YOUTH ASSESSMENT SYSTEM (OYAS)

The OYAS is an Ohio-specific juvenile justice assessment system developed by the Ohio Department of Youth Services, the University of Cincinnati, Ohio juvenile courts, community corrections facilities, and other community programs. The development of this instrument was based on the need to create a risk/needs assessment that provided the juvenile justice system with a standardized process of evaluating the criminogenic needs and risks of the youth. The OYAS contains five assessment tools: Diversion, Detention, Disposition, Residential, and Re-entry. While the tools gives an overall picture of risk to reoffend, the disposition tool also determines the areas that present the greatest risk and are the best predictors of further delinquency. The OYAS gives probation staff the ability to focus interventions on areas of highest risk, such as: family and living arrangements, peers and social support networks, education and employment, pro-social skills, substance abuse/mental health, and personality and criminal values, beliefs, and attitudes.

EFFECTIVE PRACTICE IN COMMUNITY SUPERVISION (EPICS)

The Court's Probation Officers utilize EPICS in all of their interactions with moderate and high risk youths and their families. EPICS is a research-based model that combines intervention strategies with community supervision. The purpose of EPICS is to structure visits with youth in a way that ensure the application of principles of effective intervention in our community supervision practices. The model is designed to use a combination of monitoring, referrals, and face to face interactions to provide the youths with the correct dosage of treatment according to risk level and make the best possible use of time to develop a collaborative working relationship. Cuyahoga County Juvenile Probation Staff completed EPICS training in 2011 and have fully implemented the model into their daily practice. In 2012, selected employees were trained by the University of Cincinnati to become trainers in the model, and staff that were already trained continue to have refreshers to ensure our fidelity to the model.

MOTIVATIONAL INTERVIEWING (MI)

Motivational Interviewing (MI) is an evidence-based treatment that addresses ambivalence to change. It is a conversational approach designed to help people identify their readiness, willingness, and ability to change and to make use of their own change-talk. MI is a core component of evidence-based practices, and emerging best practices in criminal justice. MI is a firm, fair, and consistent stance where probation officers work to form a positive, collaborative relationship with their clients while also holding them accountable. All probation officers were trained in MI in 2015. MI works well with EPICS as a client's willingness to change increases; the EPICS model provides them the tools and skills to do so.

COURT ADMINISTRATION DIVISION

SPECIALIZED DOCKETS

During 2018, the court continued its specialized docket-Juvenile Drug Court, Family Drug Court, Mental Health Court and Re-entry Court. The Juvenile Drug Court and Mental Health Court's certifications were renewed by the Supreme Court. The value of specialized dockets to families involved in the court system is the ability of the court to focus on the special needs of the populations served.

Juvenile Drug Court requires participants to attend regularly scheduled Court hearings, attend treatment, meet with a case manager multiple times a week, and submit to random drug screens. Graduated rewards and sanctions are utilized as juveniles move through the multiple phases of the program.

The **Family Drug Court** operates similarly to the **Juvenile Drug Court**, but the participants are parents whose children are alleged to be abused, neglected or dependent and who are at risk of losing custody of their children because of drug dependency. The intensive program is designed to reduce the time that a child may have to spend in placement while the parent receives treatment for their substance abuse addiction.

The **Re-entry Court** is designed to address the needs of youth returning to the community from Ohio Department of Youth Services (ODYS) institutions. Identified youth who are at high risk for further delinquent activity are selected. The specialized docket provides needed support and intensive supervision through joint efforts with ODYS and other county agencies for youth and families. Education, employment, and life skills opportunities are provided in an effort to maintain youth safely in their communities. Juvenile Court and Ohio Department of Youth Services (ODYS) have teamed up with community partners such as Alcohol Drug Addiction and Mental Health Services (ADAMHS), Catholic Charities, and Cleveland Municipal School District (CMSD) to form the Juvenile Court Judicial Release Committee. The committee reviews cases of youth who have reached their midpoint of their ODYS sentence. Qualifying youth who have demonstrated positive change and program engagement while in ODYS will have the opportunity to be reviewed by the committee and the potential to earn a recommendation to be released back to the community under supervision. The committee only provides a recommendation to the committing Jurist. If the Jurist accepts the recommendation, upon release the youth and family are expected to participate in Parole services such as Re-entry Court, counseling, educational and/or vocational programming.

COMMUNITY SERVICE/RESTITUTION PROGRAM

Developed in 1986, the Cuyahoga County Juvenile Court's Community Service/Restitution Program was designed to provide positive sanctions and to give youth an opportunity to make amends for harm done to victims and the community. The program encourages juvenile probationers to take responsibility for their actions and can be used as a court-ordered dispositional alternative. The program has job sites located throughout the county to which probationers are assigned. Sites include nursing homes, churches, food banks, community gardens, neighborhood recreation centers and more.

Every Saturday an average of 30 youth participate in community service activities. In 2006, the Court's Victims Assistance Restitution Program was implemented that allows youth who owe restitution to earn up to \$100 by completing community service hours through the Community Service Program. This gives the youth the opportunity to pay back all or a portion of what they owe to the victim. The program has been successful in collecting a total of \$24,491.84 in 2018.

COURT ADMINISTRATION DIVISION

MULTI-SYSTEMIC THERAPY PROGRAM (MST)

The Cuyahoga County Juvenile Court Multi-Systemic Therapy Program has been in existence for over 14 years. The program employs eight therapists and one manager. The program serves 120 youth and families per year. The MST Program is a unique, goal oriented, comprehensive, and evidenced-based, treatment program designed to serve youth with multiple problems in their communities. MST is a community based treatment program that has been cost effective for youth with complex emotional, social and academic needs.

MST utilizes a home-based model whereby therapists provide intensive services within the family's ecology including the home, school and community. Therapists are available 24-hours-per-day, seven-days-a-week. Each Therapist has a case load size of 4-6 families to allow for the necessary intensity. The average length of treatment is between 3-5 months.

Each MST team has a supervisor and an expert consultant from the Center for Innovative Practice who consults weekly on all cases. MST is effective in reducing anti-social behaviors and recidivism. The MST model increases parenting skills and improves school behaviors by limiting truancy and academic problems. It assists in reducing criminal behavior as well as substance abuse and association with negative peers.

MST provides youth/families with a complete assessment of the youth with emphasis placed on their family system, school and community. The MST therapist focuses on understanding the "fit" of the child's/family's issues and how to best resolve them. In addition, MST focuses on assisting parents in building support systems and social networks within their community and empowers them to address their family's needs more effectively. A heavy emphasis is placed on ensuring the family's ability to sustain the positive changes and avoid recidivism once the therapy has ended.

PLACEMENT AFTERCARE

Residential Placement is out-of-home therapeutic placement for youth needing the most intensive level of services. All of the facilities used by the Court are licensed by the State of Ohio and are staff secure, providing intensive counseling and supervision 24-hours-a-day, 7-days-a-week. Youth placed in residential treatment are typically youth who have not adjusted well to community-based services. Removing a youth from his/her home is always a difficult decision. The Court's goal is to work with youth and their families in the least restrictive environment and to only place a youth out of home after community-based resources have been exhausted.

Services in placement include, but are not limited to:

- Individual, group, anger management, sex offender, chemical dependency, and family counseling.
- Mental health care, psychological and psychiatric evaluations and monitoring.
- Medication evaluation and monitoring.
- Educational services including special education, GED preparation & vocational education.

COURT ADMINISTRATION DIVISION

COMMUNITY BASED INTERVENTION CENTER (CBIC)

The Community Based Intervention Center (formerly CBT) is an evidenced based, intensive, day treatment program. This program has been successful in assisting youth who exhibit criminogenic behaviors to make pro social choices and reduce recidivism.

The CBIC program is based on the curriculum of Cognitive-Behavioral Intervention-A Comprehensive Curriculum for Juveniles. The two distinct parts of the curriculum are cognitive restructuring and social skill interventions, which build upon one another and lay the foundation for problem solving. The program can vary in length depending on the youth's participation, so it can take from 10 or more weeks to complete.

In 2017, the court expanded the program from afterschool to operating from 8:00 am - 7:00 pm Monday through Friday and half days on Saturdays. This change allows the court to serve both pre and post adjudicated youth while giving participants time to improve behavior and learn new skill prior to disposition and increase their chances to successfully remain in the community while on probation.

The CBIC program is designed to target youth who are assessed to be moderate to high risk. The program addresses the criminogenic thinking patterns/behaviors that have impacted the youth's abilities to function as a productive part of society.

PROGRAMMING, TRAINING AND QUALITY ASSURANCE UNIT

The Programming, Training, and Quality Assurance (PTQA) Unit identifies and works with each department to implement best practice interventions across the Court. In collaboration with several court departments and other system partners, PTQA worked toward the effort to develop the Intervention Center. PTQA aided the team to consult literature to guide recommendations. PTQA also consulted with other Ohio JDAI counties for site visits, phone conferences, and policy recommendations. The PTQA Unit was also able to secure additional funding through ODYS in order to initiate mental health services in the Intervention Center.

While the Intervention Center was the greatest lift in 2018, PTQA continued to secure and manage several grants including RECLAIM, Targeted RECLAIM, and Competitive RECLAIM. In addition, PTQA obtained grant funding through the Ohio Attorney General's Office through the Victims of Crime Act for the victims of human trafficking served by the Court's Safe Harbor Docket, and the Court was awarded the U.S. Department of Justice, Office of Juvenile Justice and Delinquency Prevention Drug Treatment Court grant in order to ensure the Court's Drug Court is adhering to the national best practice guidelines.

Another initiative PTQA is working toward is supported by Ceres Policy Research to collect and provide data regarding sexual orientation, gender identity, and gender expression (SOGIE). For the first time the Court will be able to report data specific to youth that identify as LGBTQ/GNC. PTQA was also awarded training and technical assistance through the Vera Institute of Justice to assist in identifying and conducting juvenile justice reform efforts to end girls' incarceration. This technical assistance will allow many staff to have access to additional training specific to girls in the juvenile justice system.

Aside from those new initiatives in 2018, PTQA also continued to provide training for all new Probation and Detention Center staff and ongoing education of existing staff. A variety of voluntary topics were offered to staff to further their professional development. In the Probation Department, PTQA worked to continue the efforts to improve Probation Officers' skills to implement Effective Practices in Community Supervision (EPICS). PTQA continued to provide quality assurance to the Probation Department with EPICS monitoring, records audits, and ongoing booster trainings for EPICS and other training topics. In addition to the Probation Department, PTQA continued training in the Detention Center with Core Correctional Practices (CCP), Suicide Prevention and Response, Prison Rape Elimination Act (PREA), Mandated Reporting, Gang Identification, and Working with youth with Developmental Disabilities training. Across the entire Court, PTQA partnered with Human Resources to provide ALICE training for all departments.

COURT ADMINISTRATION DIVISION

PROGRAMMING, TRAINING AND QUALITY ASSURANCE UNIT (CONTINUED)

Other exciting efforts that will continue to expand through the years are Restorative Circles provided by the Juvenile Justice Coalition. Probation, Community Service, Detention Center staff, and community members were trained in the Restorative Circles. Also, in order to expand programming in the Detention Center, PTQA introduced Personal Responsibility Education Program (PREP) for Detention Center residents. Lastly, PTQA worked alongside of the Detention Center and the Diagnostic Clinicians to develop a new and improved behavior management system for Detention Center residents.

PTQA Unit looks forward to continuing our collaboration with Court Departments and community partners to provide best practices to all youth across the juvenile justice continuum of services.

THE INTERVENTION CENTER

Perhaps the largest endeavor for the Court in the year of 2018 was the development of the Intervention Center. Keeping with the principles of *Annie E. Casey's Juvenile Detention Alternatives Initiative (JDAI)* and with the goal to improve outcomes for all youth, the Court collaborated with the Prosecutor's Office, the Public Defender's Office, the ADAMHS Board, the Educational Services Center, the Division of Children and Family Services, the Cleveland Police Department, and community representatives to redesign the process of which a youth enters the Juvenile Justice System.

The overarching goal of the Intervention Center is to increase diversion opportunities for non-violent offenders. The secondary, but equally significant, goal of the Intervention Center is to identify behavioral health issues for youth at the earliest point in the juvenile justice system. Through the Intervention Center each youth will be screened for potential behavioral health issues. The Intervention Center will work hand-in-hand with mental health clinicians to develop comprehensive services for youth in order to decrease their likelihood to reoffend. This will allow youth to be referred to appropriate services in lieu of formal court processing when community safety is not at risk. While the Court is only in the first phase of implementation, the intention is for all youth's cases to be processed through the Intervention Center, including police referrals for youth that need immediate services. This option will be available to law enforcement agencies once the Intervention Center is fully staffed to support the number of increased referrals.

Another additional benefit of the Intervention Center will be an improved process of collecting outcome data for diversion decisions. Historically, the Court has maintained minimal outcome data for diversion programs. With the assistance of the collaborating agencies, the Court developed a comprehensive list of data points to be collected in order to monitor diversion outcomes more effectively. The Cuyahoga County Prosecutor's Office has secured funding for a three year process and outcome evaluation that will be conducted by Case Western Reserve University's Begun Center for Violence Prevention Research and Education. Jeff Kretschmar, PhD is the evaluator for the project. Dr. Kretschmar has extensive experience in research in the field of criminal justice specific to adolescent behavioral health.

The Court would like to recognize the Ohio Department of Youth Services, the Cuyahoga County Prosecutor's Office, the Public Defender's Office, the Cuyahoga County ADAMHS Board, the Educational Services Center, the Cleveland Police Department, the Division of Children and Family Services, and our community partner, Cheryl Mays, for the extensive collaborative efforts in the development of this important project. The Court would also like to extend a special recognition to Montgomery County Juvenile Court for the many hours of commitment and mentorship that was provided in the development of the Cuyahoga County Juvenile Court Intervention Center.

COURT ADMINISTRATION DIVISION

JUVENILE DETENTION ALTERNATIVE INITIATIVE (JDAI)

Juvenile Detention Alternative Initiative was a major priority across the Court in 2018. Perhaps the largest JDAI endeavor was the collaboration with the State JDAI Administrator to complete the “Six Sigma/Lean Ohio” process to design and implement the Cuyahoga County Juvenile Court Intervention Center. The Intervention Center allows the Court to effectively screen for behavioral health needs of youth that enter the juvenile justice system at the earliest point, while allowing other youth to be diverted back to community or behavioral health agencies in lieu of formal case processing. This process of screening will help youth to be linked to appropriate mental health services in a more efficient manner in order to decrease the rate of recidivism that may be due to untreated mental health or behavioral health needs.

In addition to the Intervention Center, the Court began to expand Project CALM (Coordinated Approach to Low-risk Misdemeanors) outside the City of Cleveland into the suburbs. Our first suburb participating in CALM is the City of Euclid. Project CALM provides assessment, respite care and short-term case management to youth who are involved in family conflict. Project CALM diverts youth from the Detention Center and official case processing. The program assists families to be linked and referred to appropriate services without mandated system involvement. It is the intention of the Court to implement Project CALM across the entire county in the year 2019.

In addition, it was through the State JDAI Steering Committee, that the Court learned about an opportunity to receive a training and technical assistance grant through the CERES Policy and Research Center. The Court is now training and collecting Sexual Orientation Gender Identity and Expression (SOGIE) data to identify the number of LGBTQ youth that come in contact with the Juvenile Justice system. The Court plans to utilize this data to analyze program gaps or disparities for LGBTQ youth.

Perhaps of highest priority, Cuyahoga County Juvenile Court continues its commitment to the JDAI principle of improving conditions of confinement in secure detention settings. In 2018, the Court opened its doors to national experts from the Center for Children’s Law and Policy in order to obtain a detailed analysis of the priority issues related to conditions of confinement. The comprehensive report from the Center for Children’s Law and Policy is the Court’s blueprint for progress in detention center reforms. These efforts are just getting underway and will be the chief JDAI priority in 2019.

DIAGNOSTIC CLINIC

The Diagnostic Clinic consists of approximately a dozen psychologists and other clinicians who conduct mental health evaluations of youths and/or family members having legal matters heard in the juvenile justice system. In 2018, 566 clinical evaluations were completed to identify services for youths and adults involved in custody/visitation litigation, child protective actions, and juvenile offending. In addition, an innovative competency remediation program was developed to assist youths in understanding their legal charges and the court process itself. The Diagnostic Clinic also provides behavioral health consultation for Juvenile Detention Center residents. Lastly, the department provides ongoing training in forensic assessment to psychiatric and other medical residents and fellows from area hospitals and universities as well as clinical training and research advisement to local graduate students.

LEGAL DIVISION

LEGAL DIVISION

The Legal Division, led by the Court's Legal Counsel, is responsible for all legal and clerking functions and other activities necessary to ensure that court hearing processes are executed in a timely, economical, and all-inclusive manner. It consists of the Clerk of Court, the Intake and Mediation Unit, Cashier's Office, Fiscal Resources, Human Resources, the child support, traffic, and arraignment docket Magistrates, Information Technology, Media Specialist, and a Staff Attorney.

INTAKE AND MEDIATION UNIT

As was reported last year, in October of 2017, The Juvenile Court absorbed the Mediation Department to become the Department of Intake & Mediation. A year and a half into the engagement, the Department continues to achieve the aspired goals, namely: increasing output, quicker and more efficient scheduling, as well as raising money through charging for mediations. The Mediation Department continues to focus on both applications for custody and motions to modify custody and have now expanded into working with a number of schools in a pilot program for Truancy Mediation. The Department has also enhanced a component for mediation parties to begin to address child support issues immediately following mediation, which was often overlooked.

Per the Department plan with expanding the Resource Center, the Court received a grant from the Ohio Supreme Court to help with funding. The Resource Center hopes to soon be utilizing attorneys to help with Pro Se clients. This will increase the public's access to legal resources and be able to provide them with legal advice for success in their filings.

Additionally with the opening of the new Intervention Center, the Intake responsibilities have shifted to more of a Diversion Specialist role, to include increased oversight with Community Diversion Programs (CDPs) as well as a focus on other diversionary options. A higher level of oversight will help with data collection and improve the consistent availability of resources to the clients.

CLERK'S OFFICE

The Clerk's Office mission statement is to diligently perform all duties with integrity and professionalism at all times; to provide excellent customer service, and continually pursue methods to maximize efficiency with processing files, accessing information, and providing assistance to all.

In its pursuit to efficiently uphold our mission statement, the Clerk's Office has been able to improve on providing excellent customer service throughout the year by streamlining many of our processes with intense focus on training all staff members on current and new procedures.

- Customers entering the Clerk's Office have been welcomed by our new signage displays that have provided the public with clear concise directives to help navigate and streamline the filing process.
- The addition of a new "express attorney line" has helped all professional visitors save time filing documents with the court so that they can quickly return to serving their clients and attending to court business.
- To assist with providing better customer service, the Court's phone system has been upgraded to include the ability to record and playback phone calls for training purposes.
- A frequent training regimen for personnel has been added to help improve efficiencies and provide the ability to handle more situations quickly and accurately, essentially enhancing the customer service experience.

LEGAL DIVISION

CLERK'S OFFICE (CONTINUED)

- In February 2018, the Clerk's Office began sending a copy of journal entries electronically to attorneys, prosecutors, public defenders, and agency personnel, which has saved funds on postage expenditures.
- Case type (FA) which stands for Family has been added to the Case Management System, which includes child support (SU) and custody (CU) matters. As a result, the Indigency Determination program has been expanded to include making determinations for both custody and child support cases.
- The Clerk's Office future enhancements include implementing changes so that the Front Counter Clerks can accept and process cash transactions for filing of all documents. Customers will no longer have to wait in two different lines, at the cashier's window and at the clerk window, to complete a single filing.
- The Clerk's Office continues work to provide Electronic filing to all customers in the near future. This function will allow all court related online filings and payments to be completed electronically.
- During 2018, the Clerk's Office processed 37,057 motions and 155,387 pleading, which includes all case types.

HUMAN RESOURCES

The Human Resources Department (HR) entered 2018 with a plan to bring a connection to Juvenile Court Division employees through leadership, engagement, and development. HR participated in the Northcoast 99 assessment process which aided in identifying areas where HR and the Juvenile Court could improve to become one of the top 99 organizations in northeast Ohio. The Northcoast 99 assessment, along with HR's own LE.A.D. Survey, resulted in employee training/development and engagement activities throughout 2018.

Training/Development:

- The HR Department started an 8-session leadership training entitled "Leadership Gold". The inaugural Leadership Gold Training Series was attended by 41 members of the Court's leadership team, reported a 97.5% session attendance rate and culminated with a celebration luncheon. The HR Department began a leadership development series for first-time managers and supervisors as well as employees that have been identified as having the attributes and characteristics of leadership the Court desires in members of the leadership team.
- The HR Department partnered with the Programming, Training & Quality Assurance Unit to provide ALICE (Alert, Lockdown, Inform, Counter, Evacuate) Active Shooter Training for all Juvenile Court Division employees. At the close of 2018, approximately 90% of Juvenile Court employees had completed the training. The partnership expects to close in on training 100% of Juvenile Court employees by the end of April 2019.

Engagement:

- The HR Department began a monthly birthday celebration for Juvenile Court Division employees. Employees who attended their birth-month celebration were able to connect with other members of the Juvenile Court who shared their birth month during an hour of fun, activities, conversation, and of course birthday cake. The celebration was a welcomed reward.
- Employees that participated in the Cuyahoga County Wellness Program who achieved status in the Wellness Program qualified to receive complimentary Fitbits.

LEGAL DIVISION

HUMAN RESOURCES (CONTINUED)

2018 Employment Statistics:

- HR served **520** Juvenile Court Division employees.
- HR partnered with Juvenile Court Division departments to hire **63** new employees.
- HR partnered with Juvenile Court Division department to promote **30** employees.
- HR celebrated the years of dedicated service with **5** retiring employees.

The Human Resources Department of the Juvenile Court Division strives to foster a culture of excellence, fairness, professionalism, inclusion, and integrity. We are partners in supporting the success of the Juvenile Court Division and its employees through leadership, delivery of excellent service, and teamwork.

INFORMATION SERVICES (IS)

Information Technology staff provide ongoing network and desktop support as well as computer-related training for approximately 600 court staff.

The court's case management system iCASE continues to provide crucial and necessary information to police and other outside agencies. Significant updates have been completed, including the ability to provide electronic hearing notices and journal entries to attorneys as well as merging all newly-initiated PR, SU, and CU case types into one case type-Family (FA). The court experienced additional savings with the modification of posting legal publications to the court's website versus paying the fees required to post to an outside publication. Additionally, the implementation of an electronic certified mail return receipt process, eliminated the need to scan and image the returned green cards for successful deliveries.

FISCAL RESOURCES AND CONTRACT MANAGEMENT

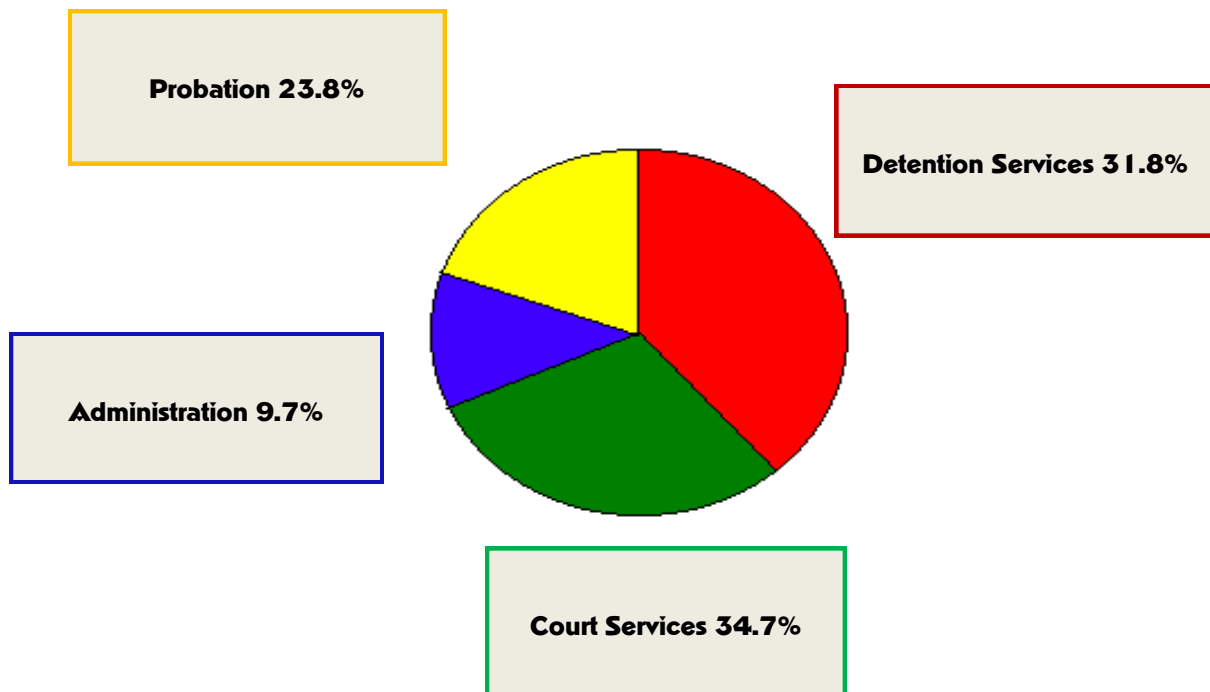

The Fiscal Resources and Contract Management Unit is responsible for all aspects of the Court's budget, invoicing, processing of payments and monitoring and reconciliation of accounts. Additionally, this unit administers all purchasing of items for the Court, and develops and processes all requests for proposals for programming and services that the Court utilizes, including negotiations with vendors, contract development and document processing through the County's procurement system. In order to accomplish these tasks, the Fiscal Resources and Contract Management unit works closely with our County partners, most specifically the County Office of Budget and Management and the Office of Procurement and Diversity. Both of these County offices assist the Court in releasing Request for Proposals in order to procure services and develop and manage the Court's contracts as well as other contractual requirements. All of these processes generally require presentations to the County Council and County Executive in order to obtain approval and contract execution.

During the past year, the Fiscal Resources Unit has been working to strategically increase the Court's revenues as well as investigate ways to decrease our expenditures and utilize a variety of funding sources. Working in conjunction with the County, many of these efforts will assist the County's overall budget shortfalls and challenges. More specifically, the Court has several on-going efforts to meet these goals, including: analyzed spending patterns in travel and other commodity purchases and investigated collections with the Ohio Attorney General for delinquent accounts.
